CONDITION OF THE MARKETS

The Wheat Boom Collapses and a Decline of Two and a Half Cents Is Recorded.

A Good Demand for Corn Prevents a Decline in Prices of that Grain-Oats Dull and Unchanged-Provisions Generally Firm.

MONEY, BONDS AND STOCKS.

Increased Activity in New York Accompanted by Generally Higher Prices. NEW YORK, Sept. 11.-Money on call was easy at 11 @2 per cent.

Prime mercantile paper, 5 26 per cent. Sterling exchange was quiet but steady at \$4.84? for sixty-day bills, and \$4.88 for demand. The total sales of stocks to-day were 274,825 shares, including the following: Delaware, Lackawanna & Western, 12,500; Erie, 11,680; Hocking Valley, 3,740; Lake Shore, 29,325; Northwestern, 4,561; New Jersey Central, 3,500; Norfolk & Western, preferred, 4,305; Northern Pacific, 3,400; Northern Pacific preferred, 10,-764; Ohio & Mississippi, 3,820; Oregon Transcontinental, 16,278; Reading, 24,900; St. Paul, 30,110; Texas Pacific, 7,800; Union Pacific,

4,785; Western Union, 14,250. The stock market was not only more active but higher throughout, on both covering of "shorts" and renewed buying for the "long" account, which came from foreigners as well as domestic sources. The raid of last evening was not continued this morning, but instead there seemed an unusual anxiety to cover "shorts" in the early trading, and this gave the market at times a buoyant tone. When this movement was satisfied there came a more urgent demand from new buyers, and the upward movement in prices was not suffered to lag for long at a time. The feeling on St. Paul seemed to have undergone a change for the better, and there was heard nothing of passing the dividend, nor were there any seller-sixty options put out; but, instead, reports that the dividend would be 11 or 14 per cent. were freely circulated, and Mr. Armour was even said to be prepared to furnish money for the regular 24 per cent. dividend. The news of the day was almost entirely bullish, and a very favorable report of the business done by the trunk lines found publication. This was accompanied by a very decided movement in the Vanderbilts, and Lake Shore, in particular, became prominent for both activity and strength, some round amounts of the stock changing hands. The Gould stocks were largely traded in, and were helped by the statement issued of the business of the Manhattan, though when the dividend was found to be unchanged, there was some disappointment, and the stocks sold off somewhat from best prices. There was more attention paid to several specialties than usual of late, and many of them made marked advances, among which Pullman, Hocking Valley. Tennessee Coal, and Memphis & Charleston were most conspicuous. London had some selling orders in the market at the opening, but they had no effect upon the list, and that interest became a buyer later in the day. Toward afternoon there was free realizing, which sagged the list off from the best prices, but the movement was of compara-tively short duration and the tone of the market again became strong in the final trading. First prices were from } to } per cent above last evening's figures, and without hesitation the market moved up rapidly on a large business until near noon, when prices were from } to 1 per cent. above those of the opening. Pullman however, rose 3 per cent. The best prices were reached about 1 P. M., after which everything receded from the highest figures, when the market became dull. The last hour, however, saw a renewal of the buying, and on a largely increased trading prices again moved up, and the close was fairly active and strong at small fractions under the best prices. The active list, without exception, is higher this evening, and Pullman rose 2 per cent.; Hocking Valley, 1; New England, 1; Lake Shore, 1; St. Paul and Chicago, St. Louis & Pittaburg preferred, 1;

per cent. each; Canada Southern, 1 per cent, and others fractional amounts. The railroad bond market was more active to day, with a much more evenly distributed business, anthough Ft. Worth & Denver first contributed \$212,000, Reading first preferred in-comes, \$211,000, and the West Shore fours \$191.-900 out of the total day's business of \$1,952, 300. The tone of the dealings was decidedly strong, and the inquiry for good. high-class boads was better than has been seen for some time. The final changes are almost invariably in the direction of higher figures, and Indiana, Bloomington & Western, eastern division, certificates rose 3, to 94.

Government bonds dull and steady. State bonds dull and without feature. Closing quotations were:

Butter in moderate demand, firm on extra

fresh: Western creamery, 14@23c; Western dairy, 12@15c. Cheese steady on fancy, Western, 71 @810.

CHICAGO, Sept. 11.—It is not known just how bad a crop report would have satisfied the believers in \$1 wheat, for when the government figures show a decidedly poor crop, with little or no improvement in winter wheat at harvest and worse conditions in spring wheat than reported thirty days ago, they let go of the wheat as if it were hot. The price of wheat went off about it on the curb here last evening, on the figures telegraphed here from Washington. When the markets opened on 'Change to day wheat was it lower, and the deluge of 'long' wheat soon broke prices another ic. It is more than probable that an army of operators with 'long' able that an army of operators with "long" wheat were only holding it to unload on the big bulge which they thought sure to follow the fierce "buli" report for August. When the figures proved tame the crowd felt the ground sinking under them, and then threw their holdings, and a two-cent drop in prices was the result. The weakness continued to the close, at 1 o'clock, when prices were 21 221c lower than yesterday. The very excellent crop prospects did not affect prices in the corn pit. There was a greater influence back of the deal. There was a good export demand for corn at York, and orders from the seaboard wer filled in large numbers in this market. The cash demand here was also very strong, and futures were easily advanced with the cash price leading unward. The opening for October was at 45c, and after the price touched 45% 245% there was some local selling, principally by one house, which broke the price to 44%. Then, with cash buying, the price bounded to 45%, the outside for the session, and the close at 1 o'clock was at 45%c. The advance for the session was | wic. Oats were dull, with fluctuations confined within narrow limits. Pork was strong at the opening, which was 24 @ 74c higher than yesterday's latest. On the call, October declined to \$14.40, where it closed at 1 o'clock; January sold up to \$14.25, closing at \$14.12\frac{1}{2}. What strength was apparent during the early bours was due largely to "short" covering. Lard was firm, opening and closing about where it rested yesterday afternoon. October ribs were a little higher, closing at 8.824c, with January at 7.20c. During the afternoon session wheat was weak and to lower than at 1 o'clock. Corn was moderately active but easier, October closing to lower. Oats were in light demand but steady. Pork was unchanged for September and October; 10c lower for November, and 5e lower for January. Lard was steady for September and October, .02 to lower for November, unchanged for the year and .02 higher for January. Short ribs were .02 to lower for September and Octo-ber and .05c for January. The leading futures

INDIANAPOLIS MARKETS.

Trade Moving Along Smoothly and Expanding Healthily, with Firm Prices as a Rule. INDIANAPOLIS, Sept. 11.

Trade moves along easily and with an expanding tendency, prices, as a rule, being very strong and advancing in their tendency. The country merchants want goods, are able to pay for them, and there is no apparent reason for their holding back in their purchases. In dry goods there is an active movement, buyers in considerable numbers are coming in daily and mail orders are liberal. Both cotton and woolen goods are firm in tone, and while no advances in prices have been made, they are imminent in the near future. Grocers are busy and prices of staple articles bullish in tone, The New York Bulletin says of coffees and sugars: "Just about the same general conditions seem to prevail on the market for Brazil coffees as for some time noted. Desirable grades are not only scarce. but appear likely to become more so if Europe makes much of a claim for Santos growths to meet the exigencies of the situation abroad, and, with close calculations of late shown by home buyers, it is considered almost a certainty that they carry too small a supply and assortment to permit absence from the market for any great length of time, unless there be an unexpected and unusual shrinkage in the natural volume of consumption. For refined sugars the demand continues excellent, and throughout the market shows a pretty good tone for all grades, with no evidence of a surplus offering, and in some cases difficulty experienced in filling orders promptly. Quotations are unchanged, but an advance is considered imminent on pretty much all grades." Holders of hog products are bullish in their talk. Prices this week on provisions

have advanced in the leading markets, and as stocks are running low, ever better prices are looked for. The produce markets are active. Receipts of both peaches and pears are daily falling off, and firmer prices rule. Apples, potatoes and melons are in good supply, and buyers practically name the price on what they purchase. Oranges are scarce and high in price; lemons plenty and weak at quotations. Receipts of poultry are liberal, and prices shaky; eggs are in light supply, with prices firm at the advance of Monday. Butter unchanged and in fair demand. GRAIN.

The local market so far as wheat is concerned is very flat, while corn and oats are in good demand at a shade better prices than those ruling on Monday. The Indianapolis Market Report, in commenting on the local situation, says: "The wheat receipts posted for past two days amounted to 40 cars against 53 cars for preceding period. Market is quiet. No. 2 red salable at 901 @ 92e; No. 3 red selling at 85 @ 88c, seconding to quality; rejected brings from 76c to 79c for poor to good samples; choice selling at 80 @ 82c. Corn receipts posted for past two days, 3 cars, against 6 cars for preceding period. Market is firmer under decreasing offerings. No. 2 white salable at 45 @ 45 te; choice colored No. 3 white at te discount; No. 2 mixed in good demand at 43 @ 44c, with offerings light. Oats receipts posted for past two days, 14 care, against 12 cars for preceding period. Market shows an improvement, with all grades in good demand. No. 2 white salable at 27 @ 28c; No. 2 mixed salable at 23% 224c. Rejected is selling at 3c discount. Bran in demand at \$12.25 20 12.50. Hominy feed selling at \$14.50 f. o. b. No. 1 spring wools rather quiet at previous prices. Georgia wool is firm at 26c; pulled wools steady and in demand. Australian and other foreign clothing wools ers asking \$13.25. Track bids to-day ruled as
